

# FRANCE AGREES TO INDEMNITY MEETING

## FRESH BATTLES REPORTED FROM GERMAN AREAS

Berlin, Oct. 26.—Fresh battles between German police and separatists were reported from the Ruhr today.

Fighting again broke out at Duisburg, on the northern edge of the Ruhr, where the secessionists had seized the town hall on Thursday.

At Bonn the secessionists were again ejected from the town hall. They still held the public market stalls resisting efforts of German police to oust them.

French troops occupying Bonn maintained strict neutrality allowing the separatists and police to fight it out.

Georgian parties in the Rhine palatinate, have sent word to Berlin that they are opposed to the socialists' effort to gain autonomy. They have pledged loyalty to the German state.

The situation in the Ruhr has grown more serious over night. All coal mines owned by Hugo Stinnes, coal and iron magnate, have been closed down in the Essen district.

Berlin, Oct. 26.—A new wave of hunger riots and plundering is sweeping Germany.

Reports from Kiel in the north to Munich in the south and from Essen in the west to the Polish border in the east tell of frenzied crowds trying to find bread and potatoes.

Sections of Frankfurt were in an uproar for hours. In more than a dozen places in the Ruhr there was rioting. In Gelsenkirchen 20 stores and shops were looted. Shipments in railway yards were stormed. Market wagons were held up in the streets and plundered of their contents.

In Barmen the police were compelled to resort to the use of firearms, killing two and wounding several. In Kiel practically all the big bakeries were plundered. The mobs then began looting the clothing stores. Fifteen were wounded in clashes with the police. A small gunboat reinforced the officers.

A great red army is being formed in the Ruhr, and the separatists continue their activities in the Rhineland with many clashes resulting in fatalities and injuries.

In the coal fields and manufacturing centers of Germany strikes were reported with accompanying riots and bloodshed.

New and serious disorders broke out in Berlin. An army of communists was reported as marching towards the capital and detachments of armed police were dispatched to meet them.

The harbor at Hamburg is completely tied up by a strike of dock workers. The strike led to clashes the last three days, in which 50 were killed and hundreds wounded. At the reichswehr headquarters at Wandsbek there were minor clashes with communists. At Harburg, near Hamburg, the police routed communists with machine guns, but the reds continued the warfare and later threw up barbed wire and built trenches. Several of these riots gave the police grave trouble.

Several street battles and much looting and plundering were reported from Feilburg in Saxony. Two German police were killed in the fighting accompanying rioting by the unemployed at Cologne.

Seven were killed and many wounded at Aix-la-Chapelle when renewed attempts were made to dislodge the separatists from the municipal buildings. The republicans are still "holding the fort" in spite of repeated attacks by the police. The chief of police and nine of his men were killed at Crefeld in attacks on the separatists, who successfully defended their position and remain in control. There is continual rioting at Essen, Borchum, Soden, Andernach, Gaisensheim and other Ruhr and Rhineland towns.

There was a bloody clash between the police and separatists at Bonn, in which the police were victorious. The separatist forces were driven from the town.

## PARKING RULES TO BE ENFORCED HERE

The police order forbidding but one row of automobiles to be parked along each curb in the city will be strictly enforced Saturday according to M. E. Graham, chief of police.

Police have been ordered to keep traffic moving Saturday. The custom of motorists stopping their cars in the center of the street and in the rear of automobiles parked at the curb will be severely dealt with by police under order of Chief Graham.

Police thus hope to keep streets clear for extra traffic expected in connection with the meeting of the Ku Klux Klan here Saturday and for the Ku Klux parade scheduled for Saturday night.

## E. T. WALLACE TO AID MRS. STOKES

Edgar T. Wallace, mining engineer of San Francisco and New York, rushed East to attend the New York City trial of W. E. D. Stokes's divorce suit against Mrs. Helen Elwood Stokes. Wallace had been named as co-respondent by Stokes. He denied the charges in whole.

## GENERAL STRIKE IN MEXICO NOW LOOMS

Mexico City, Oct. 26.—A general strike of organized labor throughout Mexico is threatened in sympathy with the striking marine workers and longshoremen, who have refused to adhere to the rulings of the board of arbitration and have launched a boycott campaign against the terminal companies. A report from Vera Cruz said the union rail workers in and around that city had threatened to strike unless the general superintendent of the terminals changes his attitude towards the striking marine workers, and that such a move would be quickly followed by the declaration of a general strike.

## COOLIDGE BACKED BY HENRY FORD

Detroit, Oct. 26.—"I'm for President Coolidge if he will enforce the prohibition laws," said Henry Ford when asked what he thought of the third party that was organized in Detroit. "You can also say," continued Mr. Ford, "that I think that the president is going about the matter of enforcement in the right way. It is undoubtedly a federal matter, but he has given the governors and the states of the country the first chance. They, too, have sworn to uphold the constitution. He said for them to enforce the law. If they do not do it, he evidently will use federal means of enforcing the law. It is finally up to President Coolidge. It is a federal matter. It is an important matter. It is so important that, as I have said before, I think that the army and navy ought to be used if need be to enforce it."

## MEXICAN STATE IS FEARING BLOODSHED

Mexico City, Oct. 26.—Disorder and bloodshed are expected to break out at any moment in the state of Puebla as the result of the election controversy there. Froylan Manjarrez, acting governor, and General Jose Marie Sanchez, former governor, both are attempting to administer the affairs of the state. Manjarrez openly accuses General Sanchez of election frauds, but Sanchez contends he was legally elected. An appeal has been made to President Obregon to settle the dispute, even if troops must be sent.

## FORBES DENIES BUREAU CHARGES

### UTTERLY FALSE IS HIS ANSWER TO ALLEGATIONS

Washington, Oct. 26.—Colonel Chas. R. Forbes, former director of the United States Veterans Bureau today issued a sweeping denial of charges of corruption and bribery brought against him during the senatorial investigation of his administration.

Appealing to the public to "withhold judgment" until he is able to present his defense, Colonel Forbes branded as "utterly and absolutely false" such specific charges of corruption made against him by Elias H. Mortimer, of Philadelphia, in testifying before a senate committee investigating the Veterans Bureau.

Speaking from a sick chamber, Forbes issued his statement to the International News Service. It was the first word from the accused official since Mortimer created a sensation at the senate hearing Wednesday, by charging Forbes had entered a "profit-sharing contract" to share profits on the construction of government hospitals, and had accepted a \$5,000 "loan" from the witness.

Forbes characterized the "bribery" charge as false and "so absurd as to be ridiculous."

The former director's statement follows:

"I do not feel that I ought to make any statement in advance of the full and complete testimony which I shall give under oath on the witness stand.

"However, at the insistent urging of my friends and in response to inquiries from the press, I cannot refrain from saying that every charge and every word of testimony, especially that of Elias H. Mortimer, reflecting on my personal or official integrity are utterly and absolutely false and without the slightest foundation.

"The story of the receipt by me of a \$5,000 bribe was not only false but so absurd as to be ridiculous. The only thing I ask of the public is to withhold judgment until my witness and I are heard and the full documentary evidence produced.

"In reply to inquiries as to when I will testify, I do not know as that is entirely within the discretion of the committee."

While Forbes was issuing his denial of the corruption charges, officials of the Department of Justice began consideration of evidence already submitted to the Senate committee with a view of launching criminal prosecutions if it can be corroborated. No action, however, will be taken until more substantial proof of graft is shown than has as yet been revealed, it was said officially.

The veterans bureau "scandal" already has been the subject of a White House conference between President Coolidge and Attorney General Daugherty. The matter was thoroughly discussed by the president, who is reported to have instructed the attorney general to take whatever legal steps he thought the situation warranted.

## VISIT BRYAN FARM

Members of the board of trustees of the Ohio State University and of the board of control of the Ohio Agricultural experiment station visited the Bryan farm at Yellow Springs, Thursday.

They discussed future policies to be pursued relative to the tract of land, which has been accepted by the State for use as a natural history and game preserve.

## FOUR CHILDREN BURN TO DEATH IN OHIO CITY

Steuenville, Oct. 26.—Four children of Mr. and Mrs. Frank Andrewski were burned to death when their home at Dillonvale, this county, was totally destroyed by flames shortly after midnight. Mr. and Mrs. Andrewski were badly burned trying to rescue their children and several firemen suffered burns.

The fire was discovered by Mr. Andrewski who found the house filled with smoke. He aroused his wife and they discovered the room occupied by their children was surrounded by flames. Both parents dashed frantically into the burning room but were forced to withdraw. The small dwelling was soon a roaring mass of flames and the four children Stanley, 12; Jennie, 9; Lottie, 7, and Alex, 5, were burned to death.

Mrs. Andrewski fainted at the dying moans of her children and was rescued by firemen who were burned about the head and face.

The building was turned so quickly that hundred stood about helpless. The death moans of the children mingled with the pitiful cries of the mother and father made the most heart touching scene ever witnessed at Dillonvale.

An hour after the flames were extinguished the bodies of the children were found huddled together in their room.

## NEW COMMANDER OF AMERICAN LEGION

Captain John R. Quinn in 1922, at New Orleans, invited the American Legion to meet in San Francisco in 1923, and to prove that the Legionnaires appreciated the invitation and the good time they had in the Golden Gate City they elected Quinn their new National Commander. Quinn, who was born in Porterville, Cal., in 1889, lives now in Delano, Kern County, Cal. He graduated from the University of California in 1912, joined the Second Officers Training Camp at the San Francisco Presidio and went overseas as Captain of Company F, 348, Field Artillery, staying with the Army of Occupation until 1919, when he returned home.

## STEINMETZ, ELECTRICAL WIZARD, DIES SUDDENLY EARLY FRIDAY MORNING

Schenectady, N. Y., Oct. 26.—Dr. Charles Proteus Steinmetz, well known electrical wizard, died at his home here shortly before 8:30 this morning.

The end came very suddenly. He had been ill less than two weeks and during the last few days had been reported as rapidly recovering.

Dr. Steinmetz was being given his breakfast when he gasped and sank back on the pillow, dead.

Just a minute before the end he had remarked to the nurse that he felt the best since he was taken sick. It is believed death was due to heart disease.

No information concerning Dr. Steinmetz's death could be obtained at his home but it was announced that a statement would be issued later by officials at the General Electric plant.

Dr. Steinmetz left Schenectady on September 1 for the Pacific coast. On the way he delivered numerous lectures in midwestern states. When he left home his physician, Dr. H. P. Groesbeck advised him to be careful about overdoing himself.

Dr. Steinmetz was born at Breslau, Germany, April 9, 1865. He came to this country 34 years ago.

Dr. Steinmetz for several years had been chief electrical engineer at the General Electric Company's plant in this city. He was regarded the world over as an electrical genius.

Schenectady was shocked when news of his death became known. He always had taken a great interest in the progress of this city.

Only a few months ago Dr. Steinmetz invented miniature thunder and lightning. This was considered one of his masterpieces. So real was the lightning that under the hand of Dr. Steinmetz small trees erected in his laboratory could be demolished.

The electrical wizard was forced to take to his bed a week ago last Saturday, following his return from a trip to the Pacific coast. At that time it was said he was suffering from a heavy cold and exhaustion, believed to have been brought on by his cross continent trip.

Dr. Steinmetz, who was in his fifty-ninth year, was regarded as the foremost electrical expert in the world next to Thomas Alva Edison.

It was the life dream of Dr. Steinmetz to make electricity the universal fuel power of America. He was constantly experimenting with this end in view.

## MORE MONEY I SCRY THROUGH GERMANY

Berlin, Oct. 26.—In spite of the printers' strike, "steam up and more speed" were the orders issued by the German reichsbank to the money presses. Complaints are coming from all parts of the country that there is not enough money to do business with and demands for almost a quadrillion marks are registered with the reichsbank.

It is hoped that by Saturday the presses will be running off between 400 and 400 trillion marks daily. Germany's floating debt now exceeds 500 trillion marks. If marks had been printed at the rate of a one mark bill every second since the birth of Christ, not enough would have been run off in 1923 years to buy one American dollar today, according to a mathematician here.

## TAFT LAW SCORED BY C. L. KNIGHT

Cleveland, Oct. 26.—Under the Taft law, to be voted on at a referendum by the people of Ohio at the fall election, "unlimited sums can be raised, and the tax spenders can go as far as they like," Charles L. Knight, of Akron, publisher of the Akron Beacon Journal and former Congressman from the fourteenth district, told the Civitan Club here today in a speech which he advocated the defeat of the Taft and Albaugh laws, ridiculed the State Republican organization for its support of these measures and took a shot at Governor Donahey and the Democratic party for doing nothing to defeat them at the polls.

## LLOYD GEORGE HAS BUSY DAY IN EAST

Washington, Oct. 26.—David Lloyd George put in one of the busiest days of his life here. He rushed from one department to another, had luncheon with President Coolidge at the white house, tea at the home of former President Wilson and dinner as the guest of Secretary Mellon, with a whole lot of other interesting meetings and experiences sandwiched in between. The former premier also viewed the capitol building, Smithsonian institution, Washington monument, Lincoln memorial and the white house and state department, and drove once around the speedway. Lloyd George met William Jennings Bryan and chatted with him on nearly every subject except prohibition.

## GERMAN NOTE IS REJECTED BY FRANCE

Paris, Oct. 26.—Germany's last desperate effort toward allied leniency, contained in her note to the reparations commission, has made no impression on the French government. Belgium's one vote and France's two votes will be cast against consideration of Germany's offer, thus ensuring its relegation to the mountainous pile of other unsuccessful notes. Meanwhile the German government has unofficially informed France the note is her last word and that she can do no more except to "allow events to take their course."

Hugo Stinnes has closed his mines in the Ruhr. Krupp and all mines and factories will close Monday, throwing millions out of work, leaving them without money and without bread and with their children crying for milk.

London, Oct. 26.—Press and public today approved Premier Stanley Baldwin's appeal for an international conference to discuss the reparations issue.

The fact that Secretary of State Hughes had expressed America's willingness to enter into such a meeting was emphasized.

The premier's proposal was revealed in his speech before the Tory conference at Plymouth last night. It was supported, however by advices from Washington containing official announcement by the state department that diplomatic conversations had been in progress and that the United States government had reiterated its willingness to take part in such a meeting.

Paris, Oct. 26.—That Premier Poincare tendered his resignation as a result of President Millerand's Evreux speech a fortnight ago, was revealed by the newspaper Quotidien today. The resignation was rejected. It is understood that the premier took the speech to be a criticism of his domestic policy.

## SENTENCED TO WORK HOUSE

Oria Scutiles, sentenced to the Dayton Work House for nine months by Probate Judge J. C. Marshall on a non-support charge, was taken to the institution Thursday by Sheriff Morris Sharp and Deputy John Baughn. Scutiles was arrested in Cincinnati by Probation Officer J. E. Watts.

## AMERICA'S REPLY HELD CAUTIOUS ON REPARATIONS

Paris, Oct. 26.—The French foreign office announced today that the government accepts Premier Stanley Baldwin's proposal for a reparations conference of experts on condition it is organized under the provisions of the treaty of Versailles and under the auspices of the interallied reparations commission.

Note: Premier Baldwin, of England, revealed in a speech last night that England is seeking such a conference and at the same time it was made known in Washington that the United States is willing to participate.)

It was pointed out however, that any such meeting must be organized under the conditions of the treaty of Versailles and must be conducted under the auspices of the interallied reparations commission.

This is the first concession made by the French since Great Britain and United States began insisting upon such a conference to fix Germany's capacity for indemnity payments.

Washington, Oct. 26.—First dispatch from Paris today stating that the French government will accept the proposal for an international conference to deal with the troublesome reparations controversy—considered by Secretary of State Hughes to be the crux of nearly all of Europe's present turmoil and distress, were received in Washington with undisguised pleasure and satisfaction.

Administration officials, however, were cautious about commenting upon this striking about-face by Premier Poincare and his "litter end associates." Before considering such a conference already an accomplished fact, they wish first to examine more closely the "conditions" under which the French acceptance is reported.

The big point which the United States will insist upon being absolutely and explicitly clear before entering the proposed conference is that it shall not attempt to deal with the question of debts owed by the allies to the United States.

London, Oct. 26.—It is understood that publication of Anglo-American correspondence with the reparations commission was made at the present juncture in order to bring pressure on Premier Poincare, who persists in thinking that the United States will hold aloof from the experts' conference if France persists in her refusal to join.

It is learned that the American charge d'affaires at Paris has a long conference with Peretti de la Rocca, chief of the political division of the French foreign office, while the British ambassador, the Marquis of Crewe, has seen the premier personally twice in the past week. Poincare, however, maintains that it is a matter for the existing reparations commission, and will not hear of any proposals for a reduction in figures.

The foreign office thinks it probable that there will be a conference in London before Christmas.

Commenting on Lord Curzon's note to Secretary Hughes and the answer to it, the Daily Chronicle says: "The foreign office was fully justified in making the appeal at this stage for co-operation by the United States. It is only to be regretted that such action was not taken long ago before the European situation became so desperate."

The Daily News says: "We hope and very earnestly believe that the invitation will be accepted. The time has definitely gone by when the world will be content to regard French intransigence as an excuse for inaction. We believe the turning point in this long and tragic history has at last been reached."

The Daily Mail says: "The American response to the British scheme is cautious, vague and cold. The scheme carries the world very little further."

The Morning Post declares that the American reply is virtually a rebuff for Lord Curzon, adding: "There is an unfortunate lack of freshness in the communication of the American government."

Secretary Hughes, in his reply to Lord Curzon, declares that the United States is willing to take part in an economic conference in which all the European allies chiefly concerned in German reparations participate for the purpose of ascertaining Germany's capacity to pay. He emphasized three points, however, first, that while the United States has no desire to see Germany relieved of her responsibility or just obligations, regard must be had for Germany's capacity to pay and for the fundamental condition of Germany's rehabilitation; second, that such conference should be advisory, and, third, that the question of the interallied debt is entirely separate from the question of reparations.

## WALTON DEFEATED; COURT RULING IS MADE PERMANENT

Oklahoma City, Okla., Oct. 25.—The last barrier erected by J. C. Walton to prevent his suspension from the chief magistracy of Oklahoma was broken down when the state supreme court made permanent a writ that prohibited the district court from interfering with Lieutenant Governor M. E. Trapp in performance of the governor's duties.

The house of representatives adopted the seventh article of impeachment charged against Walton. It had experienced a thrilling session, enlivened by a fight and ejection from the chamber of Representative J. W. Callahan, farmer-laborite and reconstruction leader, who in the course of a fiery speech accused the house of being not only dominated by, but dictated to by Grand Dragon Jewett of the Ku Klux Klan.

"Mr. Walton is my friend and I have no disposition to harass or embarrass him," said Acting Governor Trapp. "I have no policies other than a strict interpretation of the law. Walton has my sympathy."

Just what Walton will do now can not be foretold. He refused to be seen or issue a statement.

## ORGANIZE CLINIC FOR TUBERCULOSIS IN GREENE COUNTY

Organization of the 54 tuberculosis clinic to be held in Greene County, is being carried out by health commissioners, R. H. Grube, and A. D. DeHaven together with officials of the Greene County Red Cross, the Social Service League, and Miss Anna M. Doyle, organization nurse from the State Department of Health. The nurses will try to visit every physician in the county and get from him a list of patients who in his opinion would benefit from an examination. Miss Helen Evers, Red Cross public health nurse is assisting Miss Doyle in securing the list of names.

Dr. John E. Monger, Director of Health has written every physician in the county a letter explaining the on-tire program of tuberculosis clinics and their results. The Greene County Medical Society has given its approval to the campaign and promises its co-operation and assistance.

Health Commissioners DeHaven and Grube and the physicians believe

that the clinic will serve the people of Greene County by the discovery of many early and suspected cases of tuberculosis.

Dr. W. C. Breidenbach, superintendent of the Stillwater Sanitarium, Dayton, and Dr. Charles Reckhill, Medical Director of Rockhill Sanitarium, Cincinnati, have volunteered their services as diagnosticians for the local clinics. These physicians have specialized for years on diseases of the chest are recognized authorities on tuberculosis.

The health authorities wish it understood that in every instance patients will be referred back to their own physicians and that no information as to treatment or care will be given to the patient. The patient's physician will be given a copy of the specialists findings and recommendations. Drs. Grube and DeHaven declare that the physician's consent is necessary before the nurses will register any patient for the clinic.

### JAGWILL TO TELL THE TRUTH

New York, Oct. 25.—"Liptomacy is only a second rate job. The job of a writer is to tell the truth," was Israel Zangwill's, noted British novelist's reply to the report that former Premier Lloyd George had said that Zangwill was a great writer, but a poor diplomat. Zangwill added that he intended to tell America the truth in his lecture here Nov. 7, and concluded by saying: "I anticipate the consequences. I have sent for Mrs. Zangwill so as to have one friendly person near to bury me and wind up my affairs."

## DAUGHERTY TO ACT ON PROSECUTION OF ALLEGED GRAFT

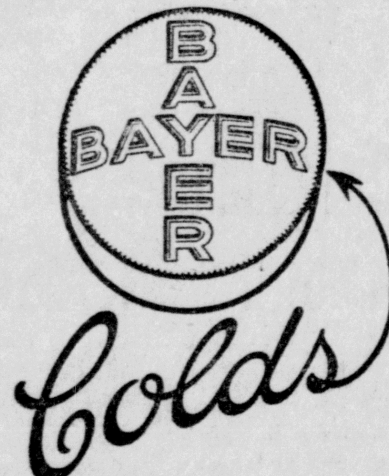

Washington, Oct. 25.—The department of justice will immediately begin prosecution of alleged graft and fraud in the veterans' bureau as brought out before the special investigating committee.

This was stated officially after Attorney General Daugherty held a long conference with President Coolidge. Both agreed, it was stated, that in view of allegations that officials had been bribed in the letting of contracts and the purchase of supplies that the case now is one for the grand jury.

It was intimated that the prosecution will take on the ramifications of one already under way in the prosecution of war frauds and that every angle of veterans' bureau activity will be carefully inquired into.

## THINGS WE COULD AS WELL DO WITHOUT

No one really desires superfluous things yet most people are bothered by the possession of them and even by the necessity of striving to accumulate them. The competitive instinct is chiefly responsible for the ordinary man's failure to cope with the problem of superfluities. Pioneers in the woods or on the plains have never been troubled by such a problem or interested in it. But when people live in communities and have a more or less artificial or conventional social life superfluous possessions assume a certain dignity and importance. Indeed one of the difficulties that confront people in modern civilized life to decide what is really superfluous and what is not. And many people even though they are able to decide the question for themselves, lack the courage of their convictions.

To economize is to dispense with the superfluous. But superfluities do not consist only in tangible objects—glassware, jewelry, for example. Some of the most troublesome superfluities are emotional. Gusty wrath over trivial matters, violent partisanship in remote or unessential causes are superfluities that people who may be extremely comical, even penurious, in some directions often permit themselves. Anger is seldom valuable as a stimulus. It early always does the person who feels it more harm than good. It is one of the superfluities that in the ordinary relations of life experienced persons find it wise to dispense with.

## A PROPOSED SOLUTION OF THE PROBLEM OF POVERTY

An interesting economic experiment is in progress in India under the inspiration and immediate direction of Capt. Petavel, a retired army officer and a lecturer on the problem of poverty at the University of Calcutta. It aims at nothing less than over coming poverty in that country of a chronic oversupply of labor and consequent unemployment. Unlike many solutions of the problem that of Captain Petavel is based on a rather definite system of economic philosophy.

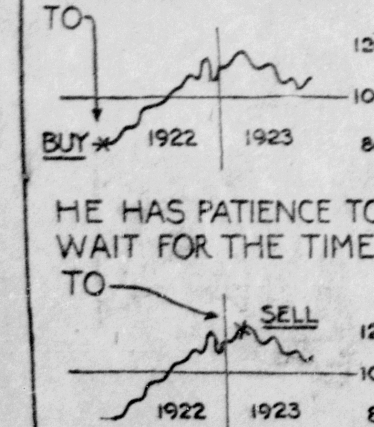

He recognizes that the dominant characteristic of the present economic system is that most articles are produced for sale rather than consumption. That is, few live on what they themselves produce; most of us sell our products or services and buy those of other people. On the whole, and for the great majority of people in a country like the United States, England, or any other country of the Western World, that system works well. What Petavel proposes is that the system of production for sale shall be left undisturbed, thus permitting those who prosper under it to retain all its advantages; but that alongside it and under the protection and fostering care of the same government a system of producing for consumption shall be organized.

One great advantage of the system of production for sale is that it permits specialization of organization and increased efficiency; and one difficulty with the system of production for consumption is that hitherto those who have tried it have been compelled to work alone, without organization and without opportunity to specialize. The person who tries to produce everything he needs must do so many things that he can never become very skillful in any one of them. Captain Petavel proposes to overcome that difficulty by supplying managing ability from the outside and organizing considerable colonies within which each dweller can specialize. He thinks that the whole colony can then be self supporting; the colony as a whole will produce all that it consumes and consume all that it produces yet each individual can specialize on the thing that he can do best. By establishing groups of such self-supporting colonies throughout India he hopes to be able to take care of all those who have not been able to fit themselves into the system of production for sale.

## MONEY AT WORK

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments

### LONG PULL TRADER FIGURES THE TIME TO

BECAUSE HE STUDIES GENERAL CONDITIONS

If any one insists on entering the stock market he should first study the tactics of the long pull trader. Long pull traders buy when they think they see a bargain. In other words, when stocks in general are low, they pick out a good one, buy it outright and sit tight until times are more better.

They expect to wait quite a while perhaps years, and if the market fluctuates up and down in the meantime, they don't worry.

Stocks have their ups and downs along with the cycles of business. The only difference is that stocks are usually from 3 to 9 months ahead of business.

If a trader has the ingenuity to pick the times when prices of stocks are down, and then has patience to

wait until they are up, he can make a fair profit. He won't make a killing though and he must study general business conditions until he is a good judge of values.

Better Than . . . . . manufacturer advertises that not one of its cars has ever worn out. Naturally

I shall always contend that he rises highest who does his job better than it has ever been done before. And that, also, is the secret of rising in the first place.

There isn't an employer anywhere who isn't watching his entire working staff, that he may know those who are doing their work better than it has been done before—so that he may select that person for something higher.

More salary is no criterion of ability.

He who does his work better and better—better than it has ever been done before—will never fail to find his pay envelope keeping step with his effort.

And not only is this reflected in the pay envelope, but in the character of the worker himself.

A thrill comes when one realizes that what one has done is better than it has ever been done before, which means mental and spiritual growth as well as earning growth.

The complainers are not to be found among the "better than's."

ADVANCING years should not mean the approach of a period of dependency—of crutches and canes—of worry, care and fatigue!

Don't dread the days ahead! Be prepared to grapple with the henchmen of Old Age—with rheumatism—with undermined health—with feebleness. The system that is free from impurities—through which rich red blood tingles need not worry about advancing years. Enlist the aid of S. S. With the aid of S. S. S. when you reach this stage of life the nerve power that has been built up by ever increasing blood cells—the vim and vigor of youth that you possess will capably enable you to enjoy the advantages of passing years, while others less fortunate are feeble and dependent.

S. S. S. for nearly a century has been serving as a valuable and time honored assistant in the fight for hale and hearty Old Age. It is made only of pure vegetable ingredients and is sold at all good drug stores. The large size bottle is the more economical.

## K 4 A TEAM TO PLAY SPRINGFIELD BULL DOGS HERE SUNDAY

The Springfield Bull Dogs, holders of an enviable reputation in the football world in Xenia, will oppose the Xenia K 4 A team at Washinton park Sunday afternoon, it is announced by the management.

The Springfield eleven was booked to replace the Dayton Grays, which team cancelled this week after agreeing to play here Sunday. Taking on the Bull Dogs, the barbers assumed a much more difficult team to conquer which should add interest to the pastime.

The Bull Dogs have played three games this season, including a scoreless tie with the Burkam Excels of Dayton. Last year the Bull Dogs defeated the locals 14 to 0. This year, although handicapped by injuries to Roach and Milburn sustained last Sunday and which will keep them off the field the barbers still feel that they will be able to avenge this defeat.

In order to fill vacancies made by the casualty list, Frank Leakey will play fullback Sunday and Rachford will take care of the center job. The rest of the lineup will be the same. The game will start at 2:30 o'clock. The admission being 35 cents and women admitted free.

## VICTOR COURT TEAM WILL MEET FRIDAY

The Xenia Victor basketball team will again be seen on local courts this season, it is announced. The team won ten out of 12 games the year before last at the rink. Main St. The following players should report: Earl Milburn, Eugene Leakey, Ray Chambliss, Ed Haley, Sears, Ernest Jackson, Holland, Gene Perrine, Rachford Stafford.

## BABE RUTH MOBBED BY KID ADMIRERS

Scranton, Pa., Oct. 25.—Ten thousand children, guests of Sheriff Reap of Lackawanna county at an exhibition baseball game, in which the great Babe Ruth participated here, became so excited at the end of the seventh inning, when Ruth drove one against the fence, that they made a mad rush from the grandstand, and seized their idol. Several boys tried to lift him on their shoulders and in the effort they threw Babe to the ground, and then the joyous mob of kiddies piled all over him. Police and motorcycle men fought their way through the mob and managed to get Babe to his feet. The king of swat was unhurt.

The explosion came with terrific force, badly damaging the house.

## IN HARD LINES

"I could not work at all and had to take to my bed with a high fever due to intestinal indigestion, gases in my stomach and pain in my right side. I had spent my last cent for doctors and medicine, which gave me no relief. I was in despair. A lodge brother gave me a bottle of Mayr's Wonderful Remedy, and the first dose relieved me. Thanks to this medicine I am now in the best of health." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation, which causes practically all stomach, liver and intestinal ailments, including appendicitis. ## HOLD RHINELAND REPUBLIC A JOKE

London, Oct. 26.—Here is the first uncensored eye-witness story of the formation of the "Rhineland republic" brought to London by a competent and reliable observer: "The Rhineland republic is worse than a joke—it is a tragedy. A few hundred ruffians, mostly boys under 20, armed with revolvers, are terrorizing the populace. The people are unable to resist because they are unarmed. Only partisans of the republic are permitted by the French and Belgians to carry arms. Despite this handicap, furious crowds at Aix-la-Chapelle broke into a furniture store, armed themselves with broken furniture and charged the Aix republicans, whom they literally beat to death, despite the fact that the latter, defending themselves with revolvers, killed many assailants."

## A White Clay

Which France perfected gave me perennial youth  
By Edna Wallace Hopper

I am the most talked of woman in America because of perennial youth. After 40 years as a stage star, I look like a girl of 19.

Many years ago I became the rage of New York. I made myself a queen of beauties. I did that, and I kept that beauty by some aids that France supplied me.

Now I am taking time in a busy life to supply those helps to other women and tell the facts about them.

### Old Clays and new

Many years ago France taught me the use of clay. Then clays were crude and muddy, as many clays are still. But they made famous beauties of women who employed them.

Since then French experts have perfected clay. The clay I now use is white refined and dainty. It has added factors which bring ten-fold results. That new-type clay is what I offer you. I call it my White Youth Clay. Whatever clay you have used, this new clay will amaze you.

### A beauty essential

Clay is a beauty essential. Years ago when few women used it, those few became famous for beauty. Now in every crowd you see multiple beauty, marvelous youth all due to the use of clay.

Clay purges the skin of all that clogs

it—the causes of sallowness blackheads and blemishes. It brings the blood to the skin to nourish and revive it. The result is that rosy afterglow which so amazes and delights.

It renews the skin and firms it. It combats all lines and wrinkles, reduces enlarged pores. Many users in 30 minutes, seem to drop ten years.

No girl can look her best no woman can keep her youth without the use of clay.

But primitive clays are out-of-date. Use the best that science knows. I have arranged to supply you the very type that I use.

Edna Wallace Hopper's White Youth Clay is supplied by all druggists and toilet counters. Price, 50c and \$1 per 4lb. Also my Youth Cream which should follow clay. Also my Facial Youth—my famous liquid cleanser. Also my Hair Youth, which brought my luxuriant hair. My Beauty Book comes with each.

Let me aid you to new beauty and new youth. To all the joys these helps have brought to me. Start today with my Youth Clay and see the change to-morrow. Edna Wallace Hopper, Business address, Walkesha, Wis.

Note: Miss Hopper is now appearing twice daily in the Pantages Theaters of the Pacific Coast and western states.

## IN 400 YEARS

Taking past experience as a basis, public records show that a depositor in an "average" Ohio Building Association would not lose even the one hundredth part of his deposit until the end of 400 years. That is, you and eleven generations of your descendants will pass on before one per cent of your deposit will be lost.

The result of the inquiry disclosing this unequalled record, published a year ago and broadcasted throughout the state and elsewhere, has not been challenged and it cannot be successfully challenged, because it is founded upon facts and figures that are indisputed.

With the belief that this Association is not only equal to, but probably well above the "average" among associations in the state and with our assurance of its fullest integrity we invite your inquiry and patronage.

# HELD ON BOND IN SHOOTING AFFRAY

Mrs. W. D. Bost, 1655 S. Limestone Street, Springfield, was released Thursday on \$1,000 bond, when she pleaded not guilty to the charge of manslaughter following the shooting of Nathaniel Pritchett, 18, of 1900 Clay Street, Springfield, Wednesday.

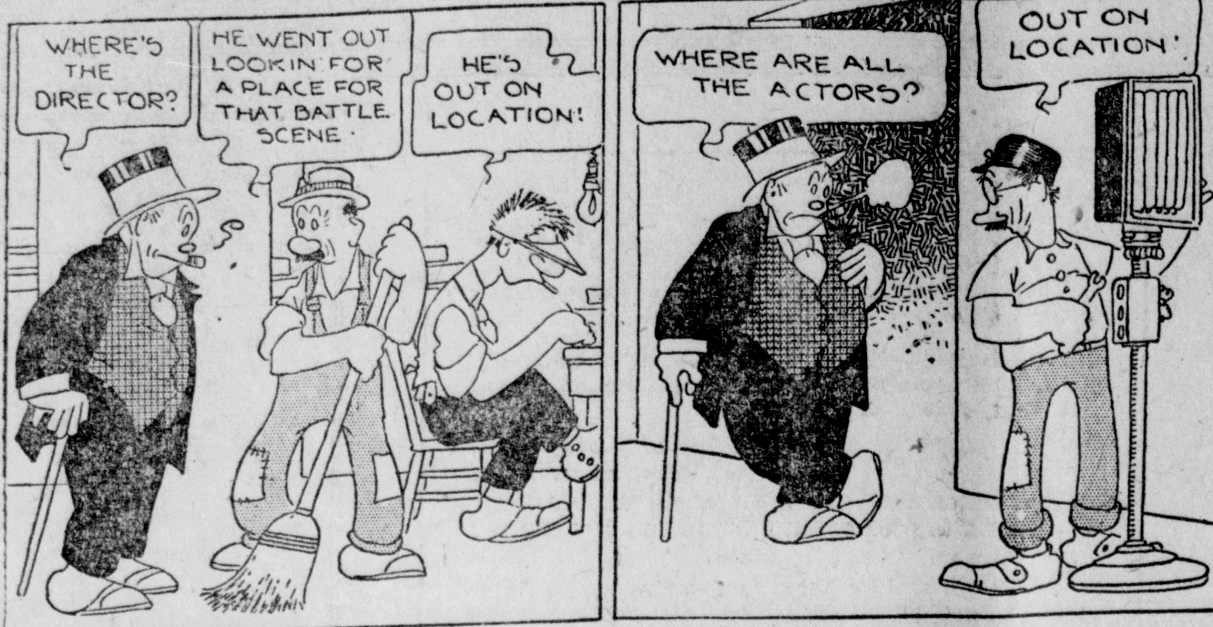

Pritchett, a brother of Rudd Pritchett of Yellow Springs, was shot during an argument between a grandson of Mrs. Bost and Marcellus Cooper, a friend of Bost. It is charged that Pritchett and Cooper threw stones at Bost who fled to his home. Pritchett died at the city hospital early Thursday morning. Police say Mrs. Bost confessed to firing the shot.

## A WARRANT FOR PAUL'S ARREST

Chapter LXIII

Paul's door opened, and we both stood listening.

"I wish to see Mr. Norwood," a voice said.

"It will be impossible," Evelyn replied. "He is in great—"

"We must see him," the voice interrupted. And looking over the banisters, I saw two men push themselves by Evelyn and enter the hall.

"What is it?" Paul asked as he started down the stairs. I followed.

"A warrant for your arrest. We're Revenue Officers. I guess that explains everything."

"Oh, no!" I cried, clutching the rail.

"Paul had turned even whiter than he had been, if that were possible, and he swayed as he stood before the men. He had not spoken."

"Please come with me?" Evelyn spoke, and it seemed that something in her voice compelled the men, for they followed her without a word, Paul before them. He had stepped in front of them when Evelyn spoke.

I stood in the doorway, trembling, frightened, yet silent.

"This is Mr. Norwood's eldest daughter. She was drowned yesterday," was all Evelyn said, as she just for a moment, uncovered Joan's lovely face.

"This is tough," one man said in a husky voice, while the other wiped his eyes.

"We won't serve the warrant," said the latter, "until after this is all over. But we'll have to stay here until we do."

I understood. They dared not let Paul out of their sight.

"Thank you," Paul said huskily, as the men withdrew into the hall.

"Efface yourselves as much as possible," Evelyn said to them. "I will promise you he won't try to get away."

My daughter dead, my home in possession of officers of the law! Was ever a woman called upon to endure more?

How I got through the remainder of that day and night I cannot yet imagine. I am sure, had it not been for Evelyn Markham I should have died. Paul and I talked no more, although we both sat the night through by Joan's side.

In the morning we buried her. Evelyn had informed some of her young friends in the neighborhood, and with her father, Laura, Evelyn, George Markham, the two officers shadowing us, we laid her to rest, then returned home. Home! The shell of a house from which all happiness had fled.

The officers gave Paul time to pack his bag, then after a quick farewell to me and the assurance he would surely be allowed to get bail, a kiss and another to wondering Laura, and he was gone.

Then I broke down completely. It was not until Evelyn, after vain efforts to calm me, began to speak of Paul's future that I began to compose myself.

"He will do differently now, Ruby. No man ever had his misdoings brought home more cruelly. Try to think of him and Laura. You have been brave always, be brave now. I believe you will have many happy years in spite of all that has happened, but it will be hard, terribly hard, and you will need all your strength. George has gone with him. He will take his case, get bail if allowed and do all he can for you."

"George?" I asked amazed. I knew he never had approved of Paul.

"Yes, Ruby. He promised me to do it for your sake."

"It is wonderful to have such a friend," I clung to her hand. "I'll do the best I can, Evelyn."

"I'm sure you will," she answered briskly, "and now the first thing you must do is to have something warm

to eat, then go to bed. I'll stay—and I will explain to Laura. She will have to know. The papers will tell her and she has seen and heard enough to make a good guess. I'll make it as easy for her as I can. She is a brave little soul and will help us."

"I have money for bail, Evelyn. I was saving to pay the mortgage. If it isn't too high—perhaps I'll have enough."

"I'll let George know, Evelyn said. Then after I had eaten she helped me undress and put me to bed as if I had been a child. I did not waken until the next morning. Bail had been arranged. Paul was at home.

Tomorrow—Paul is Sentenced to Jail.

# FRANCE AGREES TO INDEMNITY MEETING

## FRESH BATTLES REPORTED FROM GERMAN AREAS

Berlin, Oct. 26.—Fresh battles between German police and separatists were reported from the Ruhr today.

Fighting again broke out at Duisburg, on the northern edge of the Ruhr, where the secessionists had seized the town hall on Thursday.

At Bonn the secessionists were again ejected from the town hall. They still held the public market stalls resisting efforts of German police to oust them.

French troops occupying Bonn maintained strict neutrality allowing the separatists and police to fight it out.

Bourgeois parties in the Rhine palatinate have sent word to Berlin that they are opposed to the separatists' effort to gain autonomy. They have pledged loyalty to the German state.

The situation in the Ruhr has grown more serious over night. All coal mines owned by Hugo Stinnes, coal and iron magnate, have been closed down in the Essen district.

Berlin, Oct. 26.—A new wave of hunger riots and plundering is sweeping Germany.

Reports from Kiel in the north to Munich in the south and from Essen in the west to the Polish border in the east tell of frenzied crowds trying to find bread and potatoes.

Sections of Frankfurt were in an uproar for hours. In more than a dozen places in the Ruhr there was rioting. In Gelsenkirchen 20 stores and shops were looted. Shipments in railway yards were stormed. Market wagons were held up in the streets and plundered of their contents.

In Barmen the police were compelled to resort to the use of firearms, killing two and wounding several. In Kiel practically all the big bakeries were plundered. The mobs then began looting the clothing stores. Fifteen were wounded in clashes with the police. A small gunboat reinforced the officers.

A great red army is being formed in the Ruhr, and the separatists continue their activities in the Rhineland with many clashes resulting in fatalities and injuries.

In the coal fields and manufacturing centers of Germany strikes were reported with accompanying riots and bloodshed.

New and serious disorders broke out in Berlin. An army of communists was reported as marching towards the capital and detachments of armed police were dispatched to meet them.

The harbor at Hamburg is completely tied up by a strike of dock workers. The strike led to clashes the last three days, in which 50 were killed and hundreds wounded.

At the reichswehr headquarters at Wandsbek there were minor clashes with communists. At Harburg, near Hamburg, the police routed communists with machine guns, but the reds continued the warfare and later threw up barbed wire and built trenches.

Several of these riots gave the police grave trouble.

Several street battles and much looting and plundering were reported from Peilburg in Saxony. Two German police were killed in the fighting accompanying rioting by the unemployed at Cologne.

Seven were killed and many wounded at Aix-la-Chapelle when renewed attempts were made to dislodge the separatists from the municipal buildings. The republicans are still "holding the fort," in spite of repeated attacks by the police. The chief of police and nine of his men were killed at Crefeld in attacks on the separatists, who successfully defended their position and remain in control. There is continual rioting at Essen, Bochum, Soden, Andernach, Gaisenheim and other Ruhr and Rhineland towns.

There was a bloody clash between the police and separatists at Bonn, in which the police were victorious. The separatist forces were driven from the town.

## PARKING RULES TO BE ENFORCED HERE

The police order forbidding but one row of automobiles to be parked along each curb in the city will be strictly enforced Saturday according to M. E. Graham, chief of police.

Police have been ordered to keep traffic moving Saturday. The custom of motorists stopping their cars in the center of the street and in the rear of automobiles parked at the curb will be severely dealt with by police under order of Chief Graham.

Police thus hope to keep streets clear for extra traffic expected in connection with the meeting of the Ku Klux Klan here Saturday and for the Ku Klux parade scheduled for Saturday night.

## E. T. WALLACE TO AID MRS. STOKES

Edgar T. Wallace, mining engineer of San Francisco and New York, rushed East to attend the New York City trial of W. E. D. Stokes' divorce suit against Mrs. Helen Elwood Stokes. Wallace had been named as co-respondent by Stokes. He denied the charges in whole.

## GENERAL STRIKE IN MEXICO NOW LOOMS

Mexico City, Oct. 26.—A general strike of organized labor throughout Mexico is threatened in sympathy with the striking marine workers and longshoremen, who have refused to adhere to the rulings of the board of arbitration and have launched a boycott campaign against the terminal companies. A report from Vera Cruz said the union rail workers in and around that city had threatened to strike unless the general superintendent of the terminals changes his attitude towards the striking marine workers, and that such a move would be quickly followed by the declaration of a general strike.

## COOLIDGE BACKED BY HENRY FORD

Detroit, Oct. 26.—"I'm for President Coolidge if he will enforce the prohibition laws," said Henry Ford when asked what he thought of the third party that was organized in Detroit. "You can also say," continued Mr. Ford, "that I think that the president is going about the matter of enforcement in the right way. It is undoubtedly a federal matter, but he has given the governors and the states of the country the first chance. They, too, have sworn to uphold the constitution. He said for them to enforce the law. If they do not do it, he evidently will use federal means of enforcing the law. It is finally up to President Coolidge. It is a federal matter. It is an important matter. It is so important that, as I have said before, I think that the army and navy ought to be used if need be to enforce it."

## MEXICAN STATE IS FEARING BLOODSHED

Mexico City, Oct. 26.—Disorder and bloodshed are expected to break out at any moment in the state of Puebla as the result of the election controversy there. Froilan Manjarrez, acting governor, and General Jose Maria Sanchez, former governor, both are attempting to administer the affairs of the state. Manjarrez openly accuses General Sanchez of election frauds, but Sanchez contends he was legally elected. An appeal has been made to President Obregon to settle the dispute, even if troops must be sent.

## FORBES DENIES BUREAU CHARGES

### UTTERLY FALSE IS HIS ANSWER TO ALLEGATIONS

Washington, Oct. 26.—Colonel Chas. R. Forbes, former director of the United States Veterans Bureau today issued a sweeping denial of charges of corruption and bribery brought against him during the senatorial investigation of his administration.

Appealing to the public to "withhold judgment" until he is able to present his defense, Colonel Forbes branded as "utterly and absolutely false" such specific charges of corruption made against him by Elias H. Mortimer, of Philadelphia, in testifying before a senate committee investigating the Veterans Bureau.

Speaking from a sick chamber, Forbes issued his statement to the International News Service. It was the first word from the accused official since Mortimer created a sensation at the senate hearing Wednesday, by charging Forbes had entered a "profit-sharing contract" to share profits on the construction of government hospitals, and had accepted a \$5,000 "loan" from the witness.

Forbes characterized the "bribery" charge as false and "so absurd as to be ridiculous."

The former director's statement follows:

"I do not feel that I ought to make any statement in advance of the full and complete testimony which I shall give under oath on the witness stand.

"However, at the insistent urging of my friends and in response to inquiries from the press, I cannot refrain from saying that every charge and every word of testimony especially that of Elias H. Mortimer, reflecting on my personal or official integrity are utterly and absolutely false and without the slightest foundation."

"The story of the receipt by me of a \$5,000 bribe was not only false but so absurd as to be ridiculous. The only thing I ask of the public is to withhold judgment until my witness and I are heard and the full documentary evidence produced."

"In reply to inquiries as to when I will testify, I do not know as that is entirely within the discretion of the committee."

While Forbes was issuing his denial of the corruption charges, officials of the Department of Justice began consideration of evidence already submitted of the Senate committee with a view of launching criminal prosecutions if it can be corroborated. No action, however, will be taken until more substantial proof of graft is shown than has as yet been revealed, it was said officially.

The veterans bureau "scandal" already has been the subject of a White House conference between President Coolidge and Attorney General Daugherty. The matter was thoroughly discussed by the president, who is reported to have instructed the attorney general to take whatever legal steps he thought the situation warranted.

## VISIT BRYAN FARM

Members of the board of trustees of the Ohio State University and of the board of control of the Ohio Agricultural experiment station visited the Bryan farm at Yellow Springs, Thursday.

They discussed future policies to be pursued relative to the tract of land, which has been accepted by the State for use as a natural history and game preserve.

## FOUR CHILDREN BURN TO DEATH IN OHIO CITY

Stuebenville, Oct. 26.—Four children of Mr. and Mrs. Frank Andrewski were burned to death when their home at Dillonvale, this county, was totally destroyed by flames shortly after midnight. Mr. and Mrs. Andrewski were badly burned trying to rescue their children and several firemen suffered burns.

The fire was discovered by Mr. Andrewski who found the house filled with smoke. He aroused his wife and they discovered the room occupied by their children was surrounded by flames. Both parents dashed frantically into the burning room but were forced to withdraw. The small dwelling was soon a roaring mass of

## STEINMETZ, ELECTRICAL WIZARD, DIES SUDDENLY EARLY FRIDAY MORNING

Schenectady, N. Y., Oct. 26.—Dr. Charles Proteus Steinmetz, well known electrical wizard, died at his home here shortly before 8:30 this morning.

The end came very suddenly. He had been ill less than two weeks and during the last few days had been reported as rapidly recovering.

Dr. Steinmetz was being given his breakfast when he gasped and sank back on the pillow, dead.

Just a minute before the end he had remarked to the nurse that he felt the best since he was taken sick. It is believed death was due to heart disease.

No information concerning Dr. Steinmetz' death could be obtained at his home but it was announced that a statement would be issued later by officials at the General Electric plant.

Dr. Steinmetz left Schenectady on September 1 for the Pacific coast. On the way he delivered numerous lectures in midwestern states. When he left home his physician, Dr. H. P. Groesbeck, advised him to be careful about overdoing himself.

Dr. Steinmetz was born at Breslau, Germany, April 9, 1865. He came to this country 34 years ago.

Dr. Steinmetz for several years had been chief electrical engineer at the General Electric Company's plant in this city. He was regarded the world over as an electrical genius.

Schenectady was shocked when news of his death became known. He always had taken a great interest in the progress of this city.

Only a few months ago Dr. Steinmetz invented miniature thunder and lightning. This was considered one of his masterpieces. So real was the lightning that under the hand of Dr. Steinmetz small trees erected in his laboratory could be demolished.

The electrical wizard was forced to take to his bed a week ago last Saturday, following his return from a trip to the Pacific coast. At that time it was said he was suffering from a heavy cold and exhaustion, believed to have been brought on by his cross continent trip.

Dr. Steinmetz who was in his fifty-ninth year, was regarded as the foremost electrical expert in the world next to Thomas Alva Edison.

It was the life dream of Dr. Steinmetz to make electricity the universal fuel power of America. He was constantly experimenting with this end in view.

## MORE MONEY I SCRY THROUGH GERMANY

Berlin, Oct. 26.—In spite of the "printers' strike," "steam up and more speed" were the orders issued by the German reichsbank to the money presses. Complaints are coming from all parts of the country that there is not enough money to do business with and demands for almost a quintillion marks are registered with the reichsbank.

It is hoped that by Saturday the presses will be running off between 200 and 400 trillion marks daily. Germany's floating debt now exceeds 500 quintillion marks. If marks had been printed at the rate of a one mark bill every second since the birth of Christ, not enough would have been run off in 1923 years to buy one American dollar today, according to a mathematician here.

## TAFT LAW SCORED BY C. L. KNIGHT

Cleveland, Oct. 26.—Under the Taft law, to be voted on at a referendum by the people of Ohio at the fall election, "unlimited sums can be raised, and the tax spenders can go as far as they like," Charles L. Knight, of Akron, publisher of the Akron Beacon Journal and former Congressman from the fourteenth district, told the Civitan Club here today in a speech which he advocated the defeat of the Taft and Albaugh laws, ridiculed the State Republican organization for its support of these measures and took a shot at Governor Donahey and the Democratic party for doing nothing to defeat them at the polls.

## LYDD GEORGE HAS BUSY DAY IN EAST

Washington, Oct. 26.—David Lloyd George put in one of the busiest days of his life here. He rushed from one department to another, had luncheon with President Coolidge at the white house, tea at the home of former President Wilson and dinner as the guest of Secretary Mellon, with a whole lot of other interesting meetings and experiences sandwiched in between. The former premier also viewed the capitol building, Smithsonian institution, Washington monument, Lincoln memorial and the white house and state department, and drove once around the speedway. Lloyd George met William Jennings Bryan and chatted with him on nearly every subject except prohibition.

## GERMAN NOTE IS REJECTED BY FRANCE

Paris, Oct. 26.—Germany's last desperate effort toward allied leniency, contained in her note to the reparations commission, has made no impression on the French government. Belgium's one vote and France's two votes will be cast against consideration of Germany's offer, thus ensuring its relegation to the mountainous pile of other unsuccessful notes. Meanwhile the German government has unofficially informed France the note is her last word and that she can do no more except to "allow events to take their course."

Hugo Stinnes has closed his mines in the Ruhr. Krupp and all mines and factories will close Monday, throwing millions out of work, leaving them without money and without bread and with their children crying for milk.

London, Oct. 26.—Press and public today approved Premier Stanley Baldwin's appeal for an international conference to discuss the reparations issue.

The fact that Secretary of State Hughes had expressed America's willingness to enter into such a meeting was emphasized.

The premier's proposal was revealed in his speech before the Tory conference at Plymouth last night. It was supported, however by advices from Washington containing official announcement by the state department that diplomatic conversations had been in progress and that the United States government had reiterated its willingness to take part in such a meeting.

Paris, Oct. 26.—That Premier Poincare tendered his resignation as a result of President Millerand's Evreux speech a fortnight ago, was revealed by the newspaper Quotidien today. The resignation was rejected. It is understood that the premier took the speech to be a criticism of his domestic policy.

## AMERICA'S REPLY HELD CAUTIOUS ON REPARATIONS

Paris, Oct. 26.—The French foreign office announced today that the government accepts Premier Stanley Baldwin's proposal for a reparations conference of experts on condition it is organized under the provisions of the treaty of Versailles and under the auspices of the interallied reparations commission.

Note: Premier Baldwin, of England, revealed in a speech last night that England is seeking such a conference and at the same time it was made known in Washington that the United States is willing to participate.

It was pointed out however, that any such meeting must be organized under the conditions of the treaty of Versailles and must be conducted under the auspices of the interallied reparations commission.

This is the first concession made by the French since Great Britain and United States began insisting upon such a conference to fix Germany's capacity for indemnity payments.

Washington, Oct. 26.—First dispatch from Paris today stating that the French government will accept the proposal for an international conference to deal with the troublesome reparations controversy—considered by Secretary of State Hughes to be the crux of nearly all of Europe's present turmoil and distress, were received in Washington with undisguised pleasure and satisfaction.

Administration officials, however, were cautious about commenting upon this striking about-face by Premier Poincare and his "bitter end associates." Before considering such a conference already an accomplished fact, they wish first to examine more closely the "conditions" under which the French acceptance is reported.

The big point which the United States will insist upon being absolutely and explicitly clear before entering the proposed conference is that it shall not attempt to deal with the question of debts owed by the allies to the United States.

London, Oct. 26.—It is understood that publication of Anglo-American correspondence with the reparations commission was made at the present juncture in order to bring pressure on Premier Poincare, who persists in thinking that the United States will hold aloof from the experts' conference if France persists in her refusal to join.

It is learned that the American charge d'affaires at Paris had a long conference with Peretti de la Rocca, chief of the political division of the French foreign office, while the British ambassador, the Marquis of Crewe, has seen the premier personally twice in the past week. Poincare, however, maintains that it is a matter for the existing reparations commission, and will not hear of any proposals for a reduction in figures.

The foreign office thinks it probable that there will be a conference in London before Christmas.

Commenting on Lord Curzon's note to Secretary Hughes and the answer to it, the Daily Chronicle says: "The foreign office was fully justified in making the appeal at this stage for co-operation by the United States. It is only to be regretted that such action was not taken long ago before the European situation became so desperate."

The Daily News says: "We hope and very earnestly believe that the invitation will be accepted. The time has definitely gone by when the world will be content to regard French intransigence as an excuse for inaction. We believe the turning point in this long and tragic history has at last been reached."

The Daily Mail says: "The American response to the British scheme is cautious, vague and cold. The scheme carries the world very little further."

The Morning Post declares that the American reply is virtually a rebuff for Lord Curzon, adding: "There is an unfortunate lack of freshness in the communication of the American government."

Secretary Hughes, in his reply to Lord Curzon, declares that the United States is willing to take part in an economic conference in which all the European allies chiefly concerned in German reparations participate for the purpose of ascertaining Germany's capacity to pay. He emphasized three points, however, first, that while the United States has no desire to see Germany relieved of her responsibility or just obligations, regard must be had for Germany's capacity to pay and for the fundamental condition of Germany's rehabilitation; second, that such conference should be advisory, and, third, that the question of the interallied debt is entirely separate from the question of reparations.

## WALTON DEFEATED; COURT RULING IS MADE PERMANENT

Oklahoma City, Okla., Oct. 26.—The last barrier erected by J. C. Walton to prevent his suspension from the chief magistracy of Oklahoma was broken down when the state supreme court made permanent a writ that prohibited the district court from interfering with Lieutenant Governor M. E. Trapp in performance of the governor's duties.

The house of representatives adopted the seventh article of impeachment charged against Walton. It had experienced a thrilling session, enlivened by a fight and ejection from the chamber of Representative J. W. Callahan, farmer-laborite and reconstruction leader, who in the course of a fiery speech accused the house of being not only dominated by, but dictated to by Grand Dragon Jewett of the Ku Klux Klan.

"Mr. Walton is my friend and I have no disposition to harass or embarrass him," said Acting Governor Trapp. "I have no policies other than a strict interpretation of the law. Walton has my sympathy."

Just what Walton will do now can not be foretold. He refused to be seen or issue a statement.

## ORGANIZE CLINIC FOR TUBERCULOSIS IN GREENE COUNTY

Organization of the 54 tuberculosis clinic to be held in Greene County, is being carried out by health commissioners, R. H. Grube, and A. D. DeHaven together with officials of the Greene County Red Cross, the Social Service League, and Miss Anna M. Doyle, organization nurse, from the State Department of Health. The nurses will try to visit every physician in the county and get from him a list of patients who in his opinion would benefit from an examination.

Dr. John E. Monger, Director of Health has written every physician in the county a letter explaining the entire program of tuberculosis clinics and their results. The Greene County Medical Society has given its approval to the campaign and promises its co-operation and assistance.

Health Commissioners DeHaven and Grube and the physicians believe

that the clinic will serve the people of Greene County by the discovery of many early and suspected cases of tuberculosis.

Dr. W. C. Breidenbach, superintendent of the Stillwater Sanitarium, Dayton, and Dr. Charles Rockhill, Medical Director of Rockhill Sanitarium, Cincinnati, have volunteered their services as diagnosticians for the local clinics. These physicians have specialized for years on diseases of the chest are recognized authorities on tuberculosis.

The health authorities wish it understood that in every instance patients will be referred back to their own physicians and that no information as to treatment or care will be given to the patient. The patient's physician will be given a copy of the specialist's findings and recommendations. Drs. Grube and DeHaven declare that the physician's consent is necessary before the nurses will register any patient for the clinic.

### JAGWILL TO TELL THE TRUTH

New York, Oct. 25.—"Diplomacy is only a second rate job. The job of a writer is to tell the truth," was Isaac Zangwill's, noted British novelist's reply to the report that former Premier Lloyd George had said that Zangwill was a great writer, but a poor diplomat. Zangwill added that he intended to tell America the truth in his lecture here Nov. 7, and concluded by saying: "I anticipate the consequences. I have sent for Mrs. Zangwill so as to have one friendly person near to bury me and wind up my affairs."

Washington, Oct. 26.—The department of justice will immediately begin prosecution of alleged graft and fraud in the veterans' bureau as brought out before the special investigating committee.

This was stated officially after Attorney General Daugherty held a long conference with President Coolidge. Both agreed, it was stated, that in view of allegations that officials had been bribed in the letting of contracts and the purchase of supplies that the case now is one for the grand jury.

It was intimated that the prosecution will take on the ramifications of one already under way in the prosecution of war frauds and that every angle of veterans' bureau activity will be carefully inquired into.

## THINGS WE COULD AS WELL DO WITHOUT

No one really desires superfluous things, yet most people are bothered by the possession of them and even by the necessity of striving to accumulate them. The competitive instinct is chiefly responsible for the ordinary man's failure to cope with the problem of superfluities. Pioneers in the woods on the plains have never been troubled by such a problem or interested in it. But when people live in communities and have a more or less artificial or conventional social life superfluous possessions assume a certain dignity and importance. Indeed one of the difficulties that confront people in modern civilized life to decide what is really superfluous and what is not. And many people even though they are able to decide the question for themselves, lack the courage of their convictions.

To economize is to dispense with the superfluous. But superfluities do not consist only in tangible objects—glassware, jewelry, for example. Some of the most troublesome superfluities are emotional. Gusty wrath over trivial matters, violent partisanship in remote or unessential causes are superfluities that people who may be extremely economical, even penurious, in some directions often permit themselves. Anger is seldom valuable as a stimulus. It early always does the person who feels it more harm than good. It is one of the superfluities that in the ordinary relations of life experienced persons find it wise to dispense with.

## A PROPOSED SOLUTION OF THE PROBLEM OF POVERTY

An interesting economic experiment is in progress in India under the inspiration and immediate direction of Capt. Petavel, a retired army officer and a lecturer on the problem of poverty at the University of Calcutta. It aims at nothing less than overcoming poverty in that country of a chronic oversupply of labor and consequent unemployment. Unlike many solutions of the problem that of Captain Petavel is based on a rather definite system of economic philosophy.

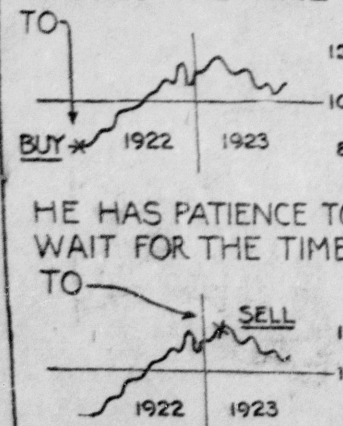

He recognizes that the dominant characteristic of the present economic system is that most articles are produced for sale rather than consumption. That is, few live on what they themselves produce; most of us sell our products or services and buy those of other people. On the whole, and for the great majority of people in a country like the United States, England, or any other country of the Western World, that system works well. What Petavel proposes is that the system of production for sale shall be left undisturbed, thus permitting those who prosper under it to retain all its advantages; but that alongside it and under the protection and fostering care of the same government a system of producing for consumption shall be organized.

One great advantage of the system of production for sale is that it permits specialization organization and increased efficiency; and one difficulty with the system of production for consumption is that hitherto those who have tried it have been compelled to work alone, without organization and without opportunity to specialize. The person who tries to produce everything he needs must do so many things that he can never become very skillful in any one of them. Captain Petavel proposes to overcome that difficulty by supplying managing ability from the outside and organizing considerable colonies within which each dweller can specialize. He thinks that the whole colony can then be self supporting; the colony as a whole will produce all that it consumes and consume all that it produces yet each individual can specialize on the thing that he can do best. By establishing groups of such self-supporting colonies throughout India he hopes to be able to take care of all those who have not been able to fit themselves into the system of production for sale.

### LONG PULL TRADER FIGURES THE TIME

### BECAUSE HE STUDIES GENERAL CONDITIONS

If any one insists on entering the stock market he should first study the tactics of the long pull trader. Long pull traders buy when they think they see a bargain. In other words, when stocks in general are low, they pick out a good one, buy it outright and sit tight until times are more better.

They expect to wait quite a while, perhaps years, and if the market fluctuates up and down in the meantime, they don't worry. Stocks have their ups and downs along with the cycles of business. The only difference is that stocks are usually from 3 to 9 months ahead of business.

If a trader has the ingenuity to pick the times when prices of stocks are down, and then has patience to

## TURKEY: "MAY I HAVE THE NEXT DANCE?"

## 1903-- Twenty Years Ago--1923

On of the closest and also roughest football games of the season was beyond a doubt played at London Saturday between the Xenia High School and London High School (?) teams. Capt. James Adair had his collar bone broken in the game.

Arthur Whalen, who has been employed on the Pan Handle in signal department has taken a position on the C. H. and D. as brakeman.

The High School boys have arranged to give a torchlight parade Friday night as an advertisement for the football game which is to be played here with Troy on Saturday.

The first performance of the week's stand which is being introduced at the Xenia Opera House by the Mimmelli Bros., "The Only Girl" was produced last night. Miss Nina Gennell was in the title role.

that concern asks a high price for its product. Who wouldn't pay a high price for a useful product or article that has never been known to wear out? What better motto can a concern have than that they build better than anyone else has ever built before?

And what better motto can you have than to place these two meaningful words above the door of your life worship: "Better than!" Success is simple. It's doing what you do better than it has ever been done before.

## Today's Talk

Better Than . . . . . manufacturer advertises that not one of its cars has ever worn out. Naturally

I shall always contend that he rises highest who does his job better than it has ever been done before. And that, also, is the secret of rising in the first place.

There isn't an employer anywhere who isn't watching his entire working staff, that he may know those who are doing their work better than it has been done before—so that he may select that person for something higher.

Mere salary is no criterion of ability. He who does his work better and better—better than it has ever been done before—will never fail to find his pay envelope keeping step with his effort.

And not only is this reflected in the pay envelope, but in the character of the worker himself.

A thrill comes when one realizes that what one has done is better than it has ever been done before, which means mental and spiritual growth as well as earning growth.

The complainers are not to be found among the "better than's."

ADVANCING years should not mean the approach of a period of dependency—of crutches and canes—of worry, care and fatigue!

Don't dread the days ahead! Be prepared to grapple with the henchmen of Old Age—with rheumatism—with undermined health—with feebleness. The system that is free from impurities—through which rich red blood tingles—need not worry about advancing years. Enlist the aid of S. S. S.—the builder of red blood cells—to fight off the infirmities of Old Age.

With the aid of S. S. S. when you reach this stage of life the nerve power that has been built up by ever increasing blood cells—the vim and vigor of youth that you possess will capably enable you to enjoy the advantages of passing years, while others less fortunate are feeble and dependent.

S. S. S. for nearly a century has been serving as a valuable and time honored assistant in the fight for hale and hearty Old Age. It is made only of pure vegetable ingredients and is sold at all good drug stores. The large size bottle is the more economical.

## END CONSTIPATION BUILD YOURSELF UP

A wholesome vegetable tonic is much better than harsh laxatives that pain and gripe without giving lasting relief. This is why Dr. Thacher's is now preferred as a corrective for constipation. Try it yourself! Just a spoonful after the next few meals. Get quick relief from constipation, indigestion and increase strength, vigor and energy. Druggists are authorized to return your money, unless you are completely satisfied.

## K 4 A TEAM TO PLAY SPRINGFIELD BULL DOGS HERE SUNDAY

The Springfield Bull Dogs, holders of an enviable reputation in the football world in Xenia, will oppose the Xenia K 4 A team at Washington park Sunday afternoon, it is announced by the management.

The Springfield eleven was booked to replace the Dayton Grays, which team cancelled this week after agreeing to play here Sunday. Taking on the Bull Dogs, the barbers assumed a much more difficult team to conquer which should add interest to the pastime.

The Bull Dogs have played three games this season, including a scoreless tie with the Burkam Excels of Dayton. Last year the Bull Dogs defeated the locals 14 to 0. This year, although handicapped by injuries to Roach and Milburn sustained last Sunday and which will keep them off the field the barbers still feel that they will be able to avenge this defeat.

## VICTOR COURT TEAM WILL MEET FRIDAY

The Xenia Victor basketball team will again be seen on local courts this season, it is announced. The team won ten out of 12 games the year before last at the Rink. Main St. The following players should report: Earl Milburn, Eugene Lecher, Ray Chambliss, Ed Haley, Sears, Ernest Jackson, Holland, Gene Perrine, Rachford Stafford.

## BABE RUTH MOBBED BY KID ADMIRERS

Sheraton, Pa., Oct. 25.—Ten thousand children, guests of Sheriff Reap of Lackawanna county at an exhibition baseball game, in which the great Babe Ruth participated here, became so excited at the end of the seventh inning, when Ruth drove one against the fence, that they made a mad rush from the grandstand, the bleachers and the outfield and seized their idol. Several boys tried to lift him on their shoulders and in the effort they threw Babe to the ground, and then the joyous mob of kiddies pulled all over him. Police and motorcycle men fought their way through the mob and managed to get Babe to his feet. The king of swat was unhurt.

## SULPHUR CLEARS ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm. It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any druggist and use it like cold cream.

A plan for providing a speed of officer to regulate reckless driving, was also discussed at the meeting.

## LOCAL MAN WILL PILOT PLANE OVER CITY ON SATURDAY

As one of the several novel advertising stunts, that the local Joseph P. Foody Post, American Legion, No. 95 is planning to use to advertise the Armistice Day celebration, November 10, R. A. Kelly will fly over Greene County Saturday in a McCook field plane.

About noon Lieutenant Kelly will drop hand bills from the airplane as he flies over all towns in Greene County. These handbills will announce that Major General Benson W. General Hough will speak at seven o'clock, at Cox Memorial Field, located in the rear of the new High School building.

The hand bills will also announce that there is to be a fire works display lasting one hour and a half, following General Hough's speech.

Kelly took his ground training at Columbus at the State University. He was first lieutenant in the American Air Service overseas. For a time he was attached to an English Squadron. Recently, Lieutenant Kelly flew a government plane to New York City.

Among the hand bills to be dropped from the airplane, there will be envelopes in which will be found orders on the American Legion for prizes. These prizes can be gotten at the Xenia Auto Necessity Co., 31 S. Detroit St., Xenia, Ohio. The following Xenia merchants have contributed prizes.

## HOLD RHINELAND REPUBLIC A JOKE

London, Oct. 26.—Here is the first uncensored eye-witness story of the formation of the "Rhineland republic" brought to London by a competent and reliable observer: "The Rhineland republic is worse than a joke—it is a tragedy. A few hundred ruffians, mostly boys under 20, armed with revolvers, are terrorizing the populace. The people are unable to resist because they are unarmed. Only partisans of the republic are permitted by the French and Belgians to carry arms. Despite this handicap, furious crowds at Aix-la-Chapelle broke into a furniture store, armed themselves with broken furniture and charged the Aix republicans, whom they literally beat to death, despite the fact that the latter, defending themselves with revolvers, killed many assailants."

## A White Clay

Which France perfected gave me perennial youth

By Edna Wallace Hopper

I am the most talked-of woman in America because of perennial youth. After 40 years as a stage star, I look like a girl of 19.

Many years ago I became the rage of New York. I made myself a queen of beauties. I did that, and I kept that beauty by some aids that France supplied me.

Now I am taking time in a busy life to supply those helps to other women and tell the facts about them.

**Old Clays and new**  
Many years ago France taught me the use of clay. Then clays were crude and muddy, as many clays are still. But they made famous beauties of women who employed them.

Since then French experts have perfected clay. The clay I now use is white refined and dainty. It has added factors which bring ten-fold results.

That new-type clay is what I offer you, I call it my White Youth Clay. Whatever clay you have used, this new clay will amaze you.

**A beauty essential**  
Clay is a beauty essential. Years ago when few women used it, those few became famous for beauty. Now in every crowd you see multiple beauty, marvelous youth all due to the use of clay.

Clay purges the skin of all that clogs

it—the causes of sallowness black-heads and blemishes. It brings the blood to the skin to nourish and revive it. The result is that rosy after-glow which so amazes and delights.

It renews the skin and firms it. It combats all lines and wrinkles, reduces enlarged pores. Many users in 30 minutes, seem to drop ten years.

No girl can look her best no woman can keep her youth without the use of clay.

But primitive clays are out-of-date. Use the best that science knows. I have arranged to supply you the very type that I use.

Edna Wallace Hopper's White Youth Clay is supplied by all druggists and toilet counters. Price, 50c and \$1 per 4lb. Also my Youth Cream which should follow clay. Also my Facial Youth—my famous liquid cleanser. Also my Hair Youth, which I brought my luxuriant hair. My Beauty Book comes with each.

Let me aid you to new beauty and new youth. To all the joys these helps have brought to me. Start today with my Youth Clay and see the change to-morrow. Edna Wallace Hopper, Business address, Waikeshu, Wis.

## IN 400 YEARS

Taking past experience as a basis, public records show that a depositor in an "average" Ohio Building Association would not lose even the one hundredth part of his deposit until the end of 400 years. That is, you and eleven generations of your descendants will pass on before one per cent of your deposit will be lost.

The result of the inquiry disclosing this unequalled record, published a year ago and broadcasted throughout the state and elsewhere, has not been challenged and it cannot be successfully challenged, because it is founded upon facts and figures that are indisputed.

Physical Culture

Perhaps the importance of a perfect and normal condition of the muscular system lies not so much in its value for the purpose of maintaining external strength and manual efficiency as in the more vital considerations having to do with the chemical and functional processes of life. These will be apparent at once when we observe that the muscular system of a normal and healthy human body comprises something between forty and fifty per cent. of the total bulk or nearly three times more than any other system or tissue of the body. When we realize that perhaps two-thirds of our vital heat is produced by the muscles, and that the greater part of our food is consumed in them, we can begin to appreciate their tremendous physiological importance. We will see how imperative is the requirement that we should be and continue to be muscularly perfect, or as nearly so as possible. With this aspect of the subject in mind, we will see, as we may never have seen before, that in neglecting to take at least a fair and healthful amount of active exercise daily, we are simply following a policy of slow self-destruction. It is impossible to be muscularly wrong, and to be right in other respects. When we say muscularly perfect we do not mean an extreme or abnormal development, but a normal condition of every part of the body, a natural, vigorous degree of strength, and in short, a physical condition in which we may compare favorably with the common perfection of life among the lower animals.

Voluntary motion by animals, comes through the exercise of some degree of mental power, but the finest of nervous organizations would be incapable of inspiring any motion if it were not for the co-ordination of muscles.

The more muscles there are trained the greater will be the varieties of motion that are possible. The firmer and larger the muscles are the greater the strain that they will endure. If the muscles are trained in toughness alone the possessor may have great strength that will be equal, for instance, to carrying great loads, or lifting great weights. But if the muscles are so trained that they do not become merely tough but elastic as well, he who has such muscles will display great agility in the different methods of exercising his strength.

# HELD ON BOND IN SHOOTING AFFRAY

Mrs. W. D. Bost, 1655 S. Limestone Street, Springfield, was released Thursday on \$1,000 bond, when she pleaded not guilty to the charge of manslaughter following the shooting of Nathaniel Pritchett, 18, of 1900 Clay Street, Springfield, Wednesday.

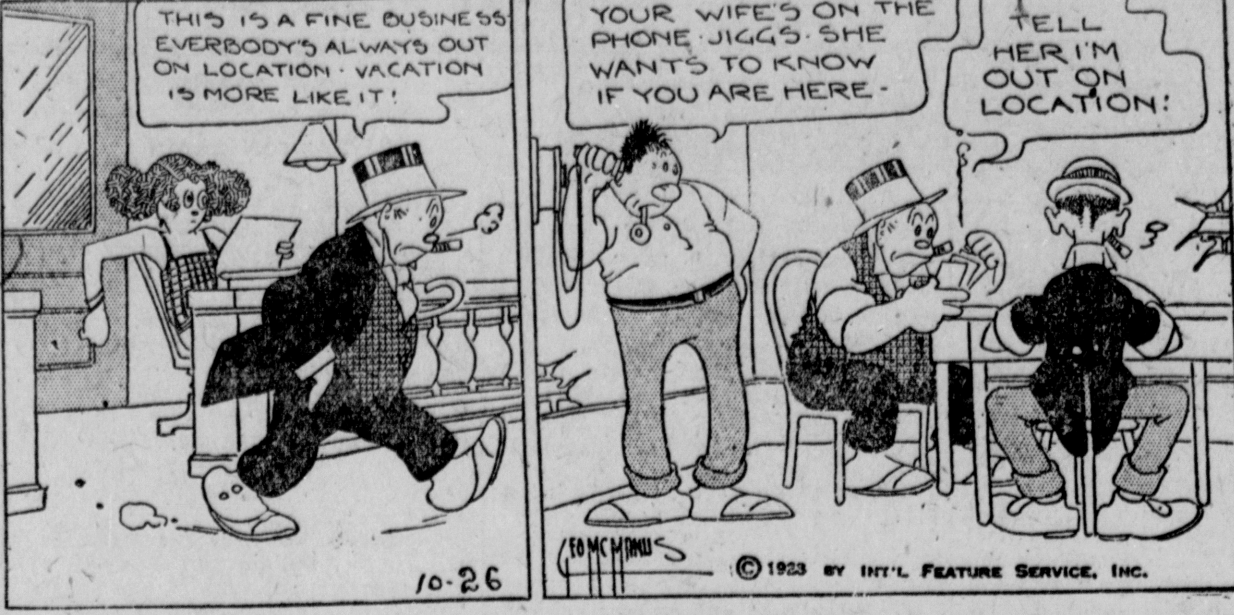

Pritchett, a brother of Rudd Pritchett of Yellow Springs, was shot during an argument between a grandson of Mrs. Bost and Marcellus Cooper, a friend of Bost. It is charged that Pritchett and Cooper threw stones at Bost who fled to his home. Later Pritchett and Bost were standing in an alley entrance when it is alleged Mrs. Bost appeared and fired at them, the bullet striking Pritchett above the left eye. Pritchett died at the city hospital early Thursday morning. Police say Mrs. Bost confessed to firing the shot.

Funeral services for Pritchett will be held at two o'clock Sunday from the Church of God, Springfield, with burial at Asbury Cemetery. Pritchett is survived by his mother, four brothers and three sisters.

Cincinnati, Oct. 26.—George H. Beazell, Jr., and William H. Chatfield of the bankrupt brokerage firm of Beazell & Chatfield of this city were indicted by the Hamilton county grand jury. The concern failed last April for more than \$1,000,000.

After a search of many years President Jacobs, of Oglethorpe University, Atlanta, Ga., located the body of General Sir James Oglethorpe, founder of the State of Georgia, interred in a vault in Cranham Church, in Essex, England. ## A WARRANT FOR PAUL'S ARREST

Chapter LXIII

Paul's door opened, and we both stood listening.

"I wish to see Mr. Norwood," a voice said.

"It will be impossible," Evelyn inter-rupted. "He is in great—"

"We must see him," the voice inter-rupted. And looking over the banisters, I saw two men push themselves by Evelyn and enter the hall.

"What is it?" Paul asked as he started down the stairs. I followed.

"A warrant for your arrest. We're Revenue Officers. I guess that explains everything."

"Oh, no!" I cried, clutching the rail. "Oh, not now!"

Paul had turned even whiter than he had been, if that were possible, and he swayed as he stood before the men. He had not spoken.

"Please come with me," Evelyn spoke, and it seemed that something in her voice compelled the men, for they followed her without a word, Paul before them. He had stepped in front of them when Evelyn spoke.

I stood in the doorway, trembling, frightened, yet silent.

"This is Mr. Norwood's eldest daughter. She was drowned yesterday," was all Evelyn said as she just for a moment, uncovered Joan's lovely face.

"This is tough," one man said in a husky voice, while the other wiped his eyes.

"We won't serve the warrant," said the latter, "until after this is all over. But we'll have to stay here until we do."

I understood. They dared not let Paul out of their sight.

"Thank you," Paul said huskily, as the men withdrew into the hall.

"Efface yourselves as much as possible," Evelyn said to them. "I will promise you he won't try to get away."

My daughter dead, my home in possession of officers of the law! Was every woman called upon to endure more?

How I got through the remainder of that day and night I cannot yet imagine. I am sure, had it not been for Evelyn Markham I should have died. Paul and I talked no more, although we both sat the night through by Joan's side.

In the morning we buried her. Evelyn had informed some of her young friends in the neighborhood, and with her father, Laura, Evelyn, George Markham, the two officers shadowing us, we laid her to rest, then returned home. Home! The shell of a house from which all happiness had fled.

The officers gave Paul time to pack his bag, then after a quick farewell to me and the assurance he would surely be allowed to get bail, a kiss and another to wondering Laura, and he was gone.

Then I broke down completely. It was not until Evelyn, after vain efforts to calm me, began to speak of Paul's future that I began to compose myself.

"He will do differently now, Ruby. No man ever had his misdoings brought home more cruelly. Try to think of him and Laura. You have been brave always, be brave now. I believe you will have many happy years in spite of all that has happened, but it will be hard, terribly hard, and you will need all your strength. George has gone with him. He will take his case, get bail if allowed and do all he can for you."

"George?" I asked amazed. I knew he never had approved of Paul.

"Yes, Ruby. He promised me to do it for your sake."

"It is wonderful to have such a friend," I clung to her hand. "I'll do the best I can, Evelyn."

"I'm sure you will," she answered briskly, "and now the first thing you must do is to have something warm

to eat, then go to bed. I'll stay—and I will explain to Laura. She will have to know. The papers will tell her and she has seen and heard enough to make a good guess. I'll make it as easy for her as I can. She is a brave little soul and will help us."

"I have money for bail, Evelyn. I was saving to pay the mortgage. If it isn't too high—perhaps I'll have enough."

"I'll let George know, Evelyn said. Then after I had eaten she helped me undress and put me to bed as if I had been a child. I did not waken until the next morning. Bail had been arranged. Paul was at home.

Tomorrow—Paul is Sentenced to Jail.
